

June 13, 2017

TO: Members of the MAG Management Committee

FROM: Ed Zuercher, Phoenix, Chair

SUBJECT: ADDENDUM TO THE JUNE 14, 2017, MAG MANAGEMENT COMMITTEE AGENDA

An addendum to the June 14, 2017, MAG Management Committee agenda has been prepared to provide an item on a pilot project for a wrong-way vehicle detection system on Interstate 17. Please contact the MAG office if you have questions about the addendum to the agenda.

19. Pilot Project for a Wrong-Way Vehicle Detection System on I-17

On June 9, 2017, the State Transportation Board approved \$3.7 million in funding for a pilot project that will alert the public of wrong-way vehicles. Construction of the thermal camera pilot system is expected to begin this fall on Interstate 17 from Interstate 10 to Loop 101. The Arizona Department of Transportation is exploring ways to begin construction even sooner. Full installation is anticipated to take seven months, and the performance of this pilot will guide further expansion. The project is included in the Draft FY 2018-2022 MAG Transportation Improvement Program that is being considered under a separate agenda item with a total of \$4.1 million of funding from the Regional Area Road Fund. The total funding includes the \$3.7 million approved by the State Transportation Board plus funds for software and other costs.

19. Recommend approval of a pilot project for a wrong-way vehicle detection system on Interstate 17 with \$4.1 million from the Regional Area Road Fund.
